THE RIGHTWAY CENTRE OF LEARNING — TRINIDAD & TOBAGO

PHASE 2 OF 5

School Management Platform (LMS)

A complete learning management system — Admin, Teacher, Learner, and Parent portals — built on FastAPI and MongoDB.

PHASE 2 INVESTMENT

USD $14,000

- Goodwill discount applied — Referred by **Prof. Elvis Cornerstone**

01 WHY THIS PHASE

Replace paper registers, WhatsApp marks, and manual fees with one platform.

Right now, teachers record attendance on paper, grades live in Excel sheets, and fee collection happens over the counter with no real tracking. The LMS replaces every one of those friction points with a single, role-based platform that everyone in the school uses daily.

4 Role Portals

Admin, Teacher, Learner, and Parent each get a dedicated, purpose-built experience.

Live Gradebook

CA 30% + Exam 70% auto-calculated. Report cards generated in seconds.

Fee Collection

WiPay Caribbean integration. Parents pay online, receipts sent automatically.

02 WHAT'S INCLUDED

4 portals. 50+ features. Fully deployed.

Portal / Module	Key Features
Admin / CEO Portal	Dashboard, learner registry, staff registry, timetable generator, announcements, system monitoring, role management
Teacher Portal	Lesson hub, Scheme of Work editor, attendance entry, gradebook, assignment marking, score entry, live test generator, behaviour tracker
Learner Portal	Personal timetable, lessons, assignments, quizzes, resources, push notifications
Parent Portal	Academic overview, behaviour records, report cards, fee payment status
Shared Modules	Built-in Messenger (real-time chat), Outlook mail integration, calendar, tasks, discussion rooms, profile management, digital signature pad
Basic Finance	Learner invoicing, payment tracking, WiPay Caribbean integration (3D Secure, TTD), PDF receipts and statements
Backend (FastAPI + MongoDB)	62 API route files, 144 MongoDB collections, JWT auth, role-based access, brute-force lockout, rate limiting
Deployment	VPS setup, Nginx, PM2, Let's Encrypt SSL, MongoDB, domain configuration

03 INVESTMENT

Enterprise-grade platform at an extraordinary rate.

06 PLATFORM CAPACITY & TECHNICAL ROBUSTNESS

Built to handle your school at full scale — and beyond.

The platform is built on **FastAPI** (Python's fastest async framework) with **MongoDB** as the database and **Redis** for session caching. This architecture is the same stack used by enterprise-grade SaaS products worldwide.

1,000+ Concurrent Users

Learners, teachers, parents, and admin staff can all be logged in and active simultaneously without performance degradation.

Async Request Handling

FastAPI processes hundreds of API requests per second. Response times stay under 200ms even under peak school-day load.

Horizontally Scalable

If RightWay grows to multiple campuses or thousands of learners, the platform scales by adding server workers — no rewrite needed.

What this means for RightWay: Whether it's 50 learners or 1,000 — Monday morning rush hour, exam result day, or parent report card release — the platform stays fast, reliable, and available. No crashes, no slow-downs, no downtime.

07 WHEN YOU'RE READY TO GROW

Add any module at any time — you only pay the difference.

Add More Modules (pay the difference)

Phase 1 — Add the school website + CMS + admissions form	**+ $2,000**
Phase 3 — Add the Complete Finance Suite (accounting, payroll, bank rec)	**+ $7,000**
Phase 4 — Add HR & Administration (staff management, leave, CPD)	**+ $5,000**
Phase 5 — Complete Platform (all modules, save $3,000 + FREE bonus website)	**$25,000 total**

Goodwill discounts carry forward. You only pay the gap — never start over.
