The RightWay Centre of Learning

HIGHLY CONFIDENTIAL · REF: RW-COL-2026-001

School Management Platform & Website for The RightWay Centre of Learning

A purpose-built, enterprise-grade school management system covering academics, finance, HR, admissions, medical, and communication — with a full public-facing website. Built for Trinidad & Tobago.

PREPARED FOR
The RightWay Centre of Learning

PREPARED BY
Philip Obiri, Lead Software Engineer

DATE
May 2026

INVESTMENT
USD $50,000 (TTD 337,000)

VALID UNTIL
31 July 2026

HIGHLY CONFIDENTIAL · FOR THE RIGHTWAY CENTRE OF LEARNING ONLY

HIGHLY CONFIDENTIAL - NOT FOR DISTRIBUTION - PROPERTY OF THE RIGHTWAY CENTRE OF LEARNING

SECTION 01

Executive Summary

This proposal presents a complete digital platform for **The RightWay Centre of Learning** — covering admissions, fee collection via WiPay Caribbean, academic delivery, HR, finance, medical, and a professional public website, all from one secure system owned outright by the school.

95+	8	144	12	$50K
Platform Pages	Role Portals	Database Collections	Weeks to Deliver	All-Inclusive (USD)

🎯 **The Bottom Line**

This platform eliminates paper registers, automates fee invoicing in TTD, gives parents real-time visibility into their child's progress, and consolidates HR, finance, medical, and academics into one system — replacing tools that cost **USD $27,000–58,000 per year** in SaaS subscriptions. Break-even: under 2 years.

SECTION 02

Understanding Your Institution

The RightWay Centre of Learning is a private school in Trinidad & Tobago offering Early Childhood Education, Primary School, and SEA preparation. As the school grows, manual operations create friction that limits quality and scale.

⚠️ Current Challenges

- ✗ Paper admission forms, no pipeline visibility
- ✗ Cash fee collection with no automated tracking
- ✗ No parent portal — updates via WhatsApp only
- ✗ No centralised gradebook or progress reports
- ✗ No HR system — leave and appraisals handled informally
- ✗ No finance reporting — no Ledger, Trial Balance, or P&L
- ✗ Sick bay records in paper files, no inventory

✅ What This Platform Delivers

- ✓ Online 8-step admissions form, 7-stage pipeline
- ✓ WiPay Caribbean — TTD card payments, auto invoices & receipts
- ✓ Parent portal — live grades, behaviour, report cards
- ✓ Automated gradebook: CA 30% + Exam 70%, quizzes
- ✓ Full HR: clock in/out, leave, CPD, performance reviews
- ✓ Double-entry accounting: Ledger, P&L, Balance Sheet, payroll
- ✓ Digital sick bay: patient records, medication inventory

SECTION 03

Platform Overview

The RightWay Platform is a full-stack, production-ready web application built on **FastAPI 0.115** and **React 19**, delivered as a Progressive Web App (PWA) — it works offline and installs like a native app on any device.

Public School Website

7 pages + CMS admin panel, digital admissions form, WhatsApp widget, full SEO

Payments (WiPay TTD)

3D Secure, Hosted Payment Page, webhook-verified, PDF invoices & receipts

Academic LMS

Lessons, assignments, quizzes, auto-grading, Scheme of Work, digital timetable

Finance & Accounting

Double-entry bookkeeping, General Ledger, Trial Balance, P&L, payroll, petty cash

HR Management

Clock in/out, leave approvals, CPD tracking, behaviour incidents, performance reviews

Medical + Communication

Sick bay records, medication inventory, real-time chat, push notifications, email

Role Portals

Portal	Users	Key Capabilities
Admin / CEO	Principal, Administrator	Full access — analytics, finance, HR, admissions, timetable, audit logs
Teacher	All teaching staff	Lessons, Scheme of Work, attendance, gradebook, assignments, behaviour
Student	All enrolled students	Timetable, lessons, assignments, quizzes, notifications, resources
Parent	Parents / Guardians	Live grades, behaviour records, report cards, invoices, communication
Specialist	Nurse, Receptionist, Guesthouse	Sick bay, medication, inventory, procurement, bookings, expenses

SECTION 04

Technical Stack & Infrastructure

⚙️ Backend

- ✓ **FastAPI 0.115** (Python 3.12) — async REST API
- ✓ **MongoDB 7** — 144 collections, 62 API modules
- ✓ ~54,000 lines of Python, role-based access control
- ✓ Brute-force lockout, rate limiting, full audit trail
- ✓ PDF generation, WebSocket chat, web push (VAPID)
- ✓ OpenAI GPT-4 plagiarism + Google Gemini search

🖥️ Frontend & Server

- ✓ **React 19** + Tailwind CSS + Radix UI
- ✓ ~32,200 lines of JSX across 95+ pages
- ✓ PWA — offline support, install prompt, background sync
- ✓ Namecheap Magnetar VPS — 6 cores, 8GB RAM, 240GB SSD
- ✓ Nginx + PM2 + Let's Encrypt SSL + UFW firewall
- ✓ Namecheap weekly snapshots + MongoDB cron backups

🌊 WiPay Caribbean — TTD-Native Payment Gateway

Purpose-built for Trinidad & Tobago. Supports TTD, USD, JMD, BBD natively. All transactions go through a **Hosted Payment Page** (PCI DSS compliant) with **3D Secure** authentication. Server-side webhook verification — no payment data stored on the school's server. PDF invoices and receipts generated and emailed automatically on every payment.

SECTION 05

Implementation Timeline - 12 Weeks

Delivered in five structured phases with client review checkpoints at the end of each. The 12-week schedule is achievable because core architecture is already designed and partially built.

1

Discovery, Design & Infrastructure Setup Week 1 Foundation

- Finalise requirements, VPS provisioning, Nginx + SSL + UFW setup
- MongoDB schema design, staging environment configuration

2 **Backend APIs — All Core Modules** Weeks 2–4 Backend

- Auth (JWT, RBAC, lockout), Academic, Admissions pipeline
- Finance (double-entry, payroll), HR (leave, CPD), Medical, Communication

3 **Frontend — Admin, Teacher, Student & Parent Portals** Weeks 5–8 Frontend Core

- Admin (30+ pages, finance tabs, HR, timetable), Teacher (lessons, gradebook)
- Student (assignments, quizzes), Parent (grades, behaviour, invoices)

4 **Specialist Portals, Website & Integrations** Weeks 9–10 Specialist

- Nurse, Reception, Guesthouse portals. 7-page public website + CMS
- WiPay Caribbean integration, real-time chat, push notifications

5 **Testing, UAT, Deployment & Training** Weeks 11–12 Launch

- Full regression testing, UAT with RightWay staff, production deployment
- Staff training workshops, DNS go-live, 60-day warranty begins

SECTION 06

Investment Breakdown

All pricing in **USD** with TTD equivalents at **USD 1 = TTD 6.74** (May 2026).

Component	Est. Hours	USD	TTD
Public School Website (7 pages + CMS admin panel + 8-step admissions form)	300 hrs	$7,000	TTD 47,180
LMS Backend — FastAPI, MongoDB (144 collections, 62 API modules)	1,300 hrs	$15,500	TTD 104,470
LMS Frontend — 7 role portals, 95+ pages (Admin, Teacher, Student, Parent, Nurse, Reception, Guesthouse)	1,040 hrs	$23,700	TTD 159,738
All-Inclusive Client Invoice (rounded)		**$50,000**	**TTD 337,000**

Component	Est. Hours	USD	TTD
VPS deployment (Nginx, SSL, UFW, PM2, MongoDB) + Domain (.com, 2 years)	10 hrs	$374	TTD 2,521
All-Inclusive Client Invoice (rounded)		**$50,000**	**TTD 337,000**

All-Inclusive - No Hidden Costs

VPS (Year 1) + Domain (2 yrs) + SSL + Deployment + Training + 60-day Warranty — all included

USD $50,000

TTD 337,000

💳 Payment Schedule

50%

USD $25,000

TTD 168,500

Due on contract signing

Work commences on clearance

25%

USD $12,500

TTD 84,250

Due at Week 6 milestone

Core system demonstrated

25%

USD $12,500

TTD 84,250

Due on final delivery & UAT sign-off

From Year 2, hosting (~$25/month) and domain renewal (~$14/year) transfer directly to The RightWay Centre's account.

SECTION 07

Why This Investment Makes Sense

This is not an expense. It is the purchase of a permanent school asset.

USD $50,000 buys a fully operational school management platform that The RightWay Centre owns outright — not a subscription, not a licence that expires. Every comparable off-the-shelf platform costs more than $50,000 *every single year*, with no ownership and no Caribbean payment integration. You pay once. It is yours forever.

📊 The 5-Year Financial Picture

Year	This Platform (USD)	SaaS Equivalent (USD)	You Save
Year 1	$50,000 all-inclusive	$29,780–62,120	**You own the asset**
Year 2	$5,112 only	$29,780–62,120	**$24,668–57,008**
Year 3	$5,112 only	$29,780–62,120	**$24,668–57,008**
Year 4	$5,112 only	$29,780–62,120	**$24,668–57,008**
Year 5	$5,112 only	$29,780–62,120	**$24,668–57,008**
5-Year Total	**$70,448**	**$148,900–310,600**	**Save $78K–$240K**

ALL-INCLUSIVE INVESTMENT

$50,000

Hosting yr 1 + domain included — then ~$5,112/yr

BREAK-EVEN VS. SAAS

< 18 Months

Platform pays for itself in under a year and a half

5-YEAR NET SAVING

$78K–$240K

Compared to equivalent SaaS stack

VS. INTERNATIONAL EDTECH VENDOR

55–87% Less

vs. $45,000–$300,000 for comparable scope globally

SECTION 08

Inclusions, Exclusions & Terms

✅ Included in the Quote

- ✓ All 8 role portals and 95+ platform pages
- ✓ Public website — 7 pages + CMS + SEO
- ✓ WiPay Caribbean payment integration (TTD, 3D Secure)
- ✓ Full accounting suite (double-entry, payroll, PDF reports)
- ✓ VPS (Year 1), domain (.com, 2 years), SSL, Nginx, PM2
- ✓ Staff training workshops + 60-day post-launch warranty
- ✓ Source code delivered on final payment — full ownership

✗ Not Included

- ✗ WiPay transaction fees (1.5–3.5% per payment, charged by WiPay)
- ✗ OpenAI / Google Gemini API usage costs
- ✗ Data entry of existing student/staff records
- ✗ Features added after agreed scope (change-order quoted separately)

📄 General Terms

- ✓ **Currency:** USD. TTD at USD 1 = TTD 6.74 — fixed at contract signing.
- ✓ **Validity:** Proposal valid for 60 days (until 31 July 2026).
- ✓ **Scope changes:** Features outside agreed scope require a separate change order.
- ✓ **Client duties:** Timely feedback, logo/images/content, UAT participation.
- ✓ **Delays:** Developer not liable for delays caused by late client responses.

⚖️ IP & Warranty

- ✓ **IP Transfer:** Full source code transfers to The RightWay Centre on final payment.
- ✓ **60-Day Warranty:** All bugs reported within 60 days of go-live fixed at no charge.
- ✓ **Data ownership:** All school data remains exclusively The RightWay Centre's property.
- ✓ **APIs:** Developer not responsible for WiPay, OpenAI, or Google outages.

SECTION 09

Proposal Acceptance

By completing the fields below, both parties confirm agreement to the scope, timeline, pricing, and terms outlined in this proposal. Work commences upon receipt of the 50% deposit.

📋 Summary of Agreement

Scope Full Platform - Website + LMS + All Portals + Deployment	**Sections 03–06**
Timeline 12 weeks from contract signing + deposit clearance	**12 Weeks**
Total Investment All-inclusive — development, VPS, domain, deployment, training	**USD $50,000 (TTD 337,000)**
Deposit Due (50%) — to commence work	**USD $25,000 (TTD 168,500)**
Warranty Period	**60 days post go-live**
